

IMPRESSIONS EQUIPMENT LIST

PREPRESS:

- We have Technology Contracts that are maintained to keep Impressions updated with the most current versions of all our software products. We are capable of working with both MAC and PC applications. We have top of the line Mac and PC workstations that are periodically upgraded to support the latest versions of software.
- We utilize electronic capabilities as much as possible to receive artwork either through email or our Website. We also provide proofing through PDF's via email to expedite orders. Physical Proofs are also available.

1 ACME MORRISON BOOKLET SADDLE STITCHER
1 CHALLENGE HYDRAULIC 3-HOLE PUNCH
1 NEOPOST HIGH SPEED DUAL TABBING SYSTEM
1 WEXLER AUTO BANDING SYSTEM

PRESS ROOM:

- We have a total of 6 printing presses ranging from Canon C800's to a 40' - 8 color Heidelberg Speedmaster with inline aqueous coating and perfecting features.
- Our Super Jet envelope press can print pre-made envelopes ranging from a 6 1/4 commercial to a 12 x 18 catalog or booklet envelope. It prints up to 2 colors on both sides in a single pass and can bleed where necessary. The press has the capability of producing up to 50,000 envelopes per hour depending on the size, number of colors and whether it is printing one side or two. We often produce envelopes for other printers.
- In addition to the 6 printing presses, we have 2 cylinder presses that we use to score, perforate and die cut. Again, this allows for controlling quality, cost and turn around.
- **All presses are direct to plate.**

--HEIDELBERG SPEEDMASTER SM 74-5-P+L

SIZE: 20 x 29
PRINTS 5-COLOR 1 SIDE OR 3 OVER 2
+ AQUEOUS COATING IN LINE
